TREND MICRO

WORRY-FREE BUSINESS SECURITY

Complete user protection designed for small business

Like most small businesses, you probably have limited resources for your IT security. So protecting your livelihood against ever-evolving IT threats can be a significant challenge. Trend Micro can help you overcome the hurdles and protect your staff anywhere, anytime, on any device.

For the past three years, more small businesses worldwide have trusted Trend Micro for content security than any other provider. We also achieved the highest overall score from AV-Test.org for all participating vendors on corporate endpoint and mobile security.

AV TEST
The Independent IT-Security Institute

Trend Micro has consistently scored at the top of testing for both endpoint and mobile security

Trend Micro™ Worry-Free™ Business Security provides complete user protection that includes antivirus, antispam, web security, and data protection for your PCs, Macs, servers, and mobile devices. All can be centrally controlled in one management console.

Specifically designed for small businesses, Worry-Free Business Security is easy to use, has a small footprint, and won't slow you or your staff down. And you have the option to deploy it on your premises or hosted by Trend Micro. With Worry-Free Business Security, you will be confident that your IT security is comprehensive and your business data is safe.

Using the global threat intelligence from **Trend Micro Smart Protection Network**™, Worry-Free Business Security provides immediate protection against the latest threats. Every day Smart Protection Network analyzes more than 15 terabytes of threat data. Then it identifies and blocks 250+ million threats in the cloud before they can reach your systems.

KEY WORRY-FREE BUSINESS SECURITY BENEFITS

· Real-time blocking in the cloud of latest threats before they reach your machines gives you peace of mind
· All-in-one security solution designed for small business lets you focus on other priorities
· Centralized control for your Windows, Macs, and Android and iOS devices makes it easy for you to see what's happening
· Deployment options of either on-premises or hosted security by Trend Micro gives you the flexibility to choose the form factor that works best for your environment

> Trend Micro Worry-Free Business Security gives us the tools to accomplish our IT goals by providing a security solution that protects our IT environment and improves efficiency.
